ANNOUNCE GRADES

Wisconsin Grain Commission Organized and Announcemen of Grades are Made.

The Wisconsin Grain Commission has announced the grades which are to apply for the new inspection and also the appointment of the remaining officials necessary to start the work of the commission.

S. P. Christianson, who is connected with the Grand Republic Elevator company, was named as chief inspector; J. B. Coombs, a well known grain man, is made first deputy inspector; Edward L. Cass, cashier of the Bank of Commerce, is treasurer.

The announcement of the commission together with the grades, follow; "State of Wisconsin, city of Superior, office of Grain and Warehouse Commission;

"The following are the grades of grain established by the grain and warehouse commission in compliance with the laws of 1905 of the state of Wisconsin creating a grain and warehouse commission for said state and providing for licensing and regulating warehouses and elevators for the storage and inspection of grain in the city of Superior and conditionally at other terminal points in said state.

"These rules are to be in full force and effect on and after August 2, 1905."

—Homer Andrew,
For the State of Wisconsin.
—Milton F. Swansten,
For State of North Dakota.
—John D. Shanahan,
For State of New York.

No. 1 Hard North Dakota spring wheat shall be sound, dry, bright and well cleaned spring wheat, composed mostly of hard Scotch varieties, and shall test not less than 58 pounds per measured bushel.

No. 1 Northern Dakota spring wheat shall be sound, dry and well cleaned, composed mostly of hard varieties of northern grown spring wheat, and test not less than 57 pounds per measured bushel.

No. 2 Northern Dakota spring wheat not fit for a higher grade in consequence of being composed mostly of hard varieties of northern grown spring wheat and test not less than 55 pounds to the measured bushel.

No. 3 spring wheat shall be composed mostly of hard varieties of spring wheat, that are shrunken or for any cause not fit for higher grade, and test not less than 53 pounds per measured bushel.

No. 4 spring wheat shall be composed of spring wheat not fit for higher grade in connsequence of being of poor quality shrunken, damp or slightly musty, and test not less than 49 pounds per measured bushel. Rejected spring wheat shall include all spring wheat grown, badly bleached or for any cause not fit for No. 4.

No. 1 Durum wheat shall be bright, dry, sound and well cleaned, composed of wheat commonly known as macaroni.

No. 2 Durum wheat shall be sound, dry, reasonably clean. may be slightly bleached or shrunken, not good enough for No. 1.

No. 3 Durum wheat shall include all wheat badly bleached, shrunken or smutty, not good enought for a higher grade.

Note B—In case of mixture of other varieties of wheat with the regular Superior grades of spring wheat, or with each other it shall be graded according to the quality thereof, and classed at 1, 2 and three mixed wheat with inspector's notation describing same.

No. 1 white oats shall be white oats, dry, sweet, clean and free from other grains, and shall test not less than 32 pounds per measured bushel.

No. 2 white oats shall be ⅓ white oats, dry, sweet, reasonably clean, practically free from other grains, and shall test not less than 31 pounds per measured bushel.

No. 3 white oats shall be ⅓ white oats, dry, sweet, reasonably clean practically free from other grains and shall test not less than 28 pounds per measured bushel.

No. 4 white oats shall be ⅓ white oats, not sufficiently sound and clean for No. 3 and shall test not less than 25 pounds per measured bushel.

No. 1 clipped white oats shall be white, dry, sweet, clean and free from other grains and shall test not less than 40 pounds per measured bushel.

No. 2 clipped white oats shall be ⅓ white oats, dry, sweet, reasonably clean, practically free from other grains and shall test not less than 38 pounds per measured bushel.

No. 2 clipped white oats shall be ⅓ white oats, dry, sweet, reasonably clean and practically free from other grains and test not less than 36 pounds per measured bushel.

No. 1 mixed oats shall be dry, sweet and clean, and free from other grains and shall test not less than 35 pounds per measured bushel.

No. 2 mixed oats shall be dry, sweet, reasonably clean, practically free from other grains and shall test not less than 31 pounds per measured bushel.

No. 3 mixed oats shall be mixed oats that are merchantable and warehouseable, reasonably clean and not fit for a higher grade.

No. 1 rye shall be sound, plump, well cleaned, and shall test not less than 56 pounds per measured bushel.

No. 2 rye shall be sound, reasonably clean, reasonably free from other grains and shall test not less than 55 pounds per measured bushel.

No. 3 rye shall be all rye, slightly damaged, slightly musty, or for some other cause unfit for No. 2.

No. 1 barley shall be plump, bright, clean and free from other grains and shall test not less than 48 pounds per measured bushel.

No. 2 barley shall be sound, of healthy color, reasonably clean, reasonably clean, reasonably free from other grains, not plump enough for No. 1 and shall test not less than 46 pounds per measured bushel.

No. 3 barley shall include all slightly shrunken or otherwise slightly damaged barley not good enough for No, 2, and shall test not less than 44 pounds per measured bushel.

No. 4 barley shall include all barley fit for malting purposes, not good enough for No. 3.

No. 1 feed barley must test not less than 40 pounds per measured bushel, must be sweet and reasonably sound.

No. 2 feed barley shall include all barley which is for any cause unfit for malting purposes and may include a liberal sprinkle of foreign grain and seeds.

Chevalier barley—The grades Nos. 1, 2 and 3, Chevalier barley shall conform in all respects to the grades Nos. 1, 2 ann 3 barley except that it shall be of the Chevalier variety, grown in the extreme northwest and on the Pacific coast.

No. 1 Northwestern Dakota flax seed shall be mature, sound dry and sweet, and shall be northern grown. The maximum quantity of field, stack, storage or other damaged seeds intermixed shall not exceed 2½ per cent. The minimum test weight shall be 51 pounds per measured bushel of commercially pure seed.

No. 2 Dakota flax seed shall be northern grown, sound, dry and free from mustiness, and shall not contain more than 35 per cent. of immature, field, stack, storage or other damaged flaxseed, and shall test not less than 49 pounds per measursed bushel of commercially pure seed.

Rejected flaxseed shall include all flaxseed that has been binburned, immature and field damaged, that is warehouseable and fit for storage and shall test not less than 47 pounds per measured bushel of commercially pure seed.

Note C — Yellow oats —The grades of Nos. 1, 2 and 3 yellow oats shall correspond in all respects to the grades of Nos. 1, 2 and 3 white oats, except that they shall be of yellow varieties.

Note D—No grade of grain—All wheat, corn, oats, rye, barley, flax seed or other grains that are found to be in a heating condition, wet, damp or musty, badly bin-burnt, badly damaged, seemingly dirty or otherwise unfit for warehousing, shall be classed "no grade" with inspector's notations as to quality aud conditions.

Note E—Grain shall in no case be graded higher than that of the poorest quality found in the lot, when it bears evidence of having been loaded unevenly.

None F—Dockage on all grain shipped in the dirt shall be determined and reported by the inspector.

M. G. EVENSON.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sich stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months, I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak from useless doctors drugs, that I could not eat. Soon after begining to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at H. H. Batemans drug store; price 50c
