

The city council met Monday evening and canvassed the vote of the recent election. Various bills were also allowed. The amended electric light franchise was not put upon its final passage the council being of the opinion that it would be better to postpone this matter until the company gave the council some definite assurance that it would provide additional machinery for furnishing proper power adequate to the needs of the city. This is the proper view to take of the matter. The business men signed the petition to the council upon these conditions and before a higher rate is granted the electric light company will have to make good. By the way things are shaping over at the power house the company does not intend to put in any more machinery.
