

The Griggs County Telephone Company is making arrangements to put its business in first class shape this coming season. The company recently placed an order for one of the best switchboards manufactured, a Kellogg board, at a cost of over \$1,100. In addition to this the company will add other necessary improvements and will make the Cooperstown exchange and the country lines running from this place one of the best equipped telephones businesses in the state. The company is going to do lots of rural line building this coming season and farmers who are contemplating the putting in of a telephone should make arrangements with the management right away as the first come first served is the way the company intends to transact business.
