

# NEW TELEPHONE COMPANY

---

## The Business Men Who Purchased The Cooperstown Telephone Business Organize New Company.

---

The COURIER mentioned a week or so ago that And. Goff had sold out the telephone exchange to local parties. We are now able to give definite information in regard to this deal. The gentlemen interested in the purchase met on Monday night and the stockholders are as follows: David Bartlett, John Syverson, Joseph Buchheit, Geo. H. Condy, Charles Burseth, M. D. Westley, H. P. Hammer, And. Goff, Oscar Greenland and Otto Pritz. The company will hereafter be known as the Griggs County Telephone Company, incorporated, with a capital of \$50,000. The directors of the new company elected Monday night are: David Bartlett, John Syverson, Joseph Buchheit, Geo. H. Condy, Charles Burseth, M. D. Westley and A. Goff. As soon as the organization certificate is received from the secretary of state the officers will be elected. The Griggs County Telephone Company is composed of some of the best business men of Griggs county and will be operated successfully. Improvements will be made as fast as needed and the public will be given good service with a square deal for all. We are glad that local parties have acquired this business as they will be more interested in giving the public better service than outside parties would.
