

Mr. Watson Lengfield, of Dazey, formerly of this place, had the misfortune to meet with a very serious, and what may prove fatal, accident, last Monday. He was jacking up a cook shanty preparatory to putting the truck under. He had already placed the hind wheels and without taking the precaution to block them, began to jack up the front of the shanty, when it swung and fell upon him, pinning him to the ground, and his back is believed to be broken. It is not known how long he remained with the crushing weight of the building resting upon him before he was discovered by some children.

Mr. Lengfield was brought down to Sanborn Monday evening on the branch train and taken to Valley City.

His recovery is extremely doubtful.
