Here is something that is worth
many dollars to every farmer to know:
Sprinkle lime in your stock tank and
not a particle of scum will form on
the water. When the lime loses its
strength scum will begin to form,
which may be twice during the sea-
son, wash out the tank and repeat the
dose. It is cheap, not only harmless
but wholesome, keeps the water sweet
and saves the live stock.

Threshing is about completed in
