

A report reaches us to the effect that Mr. and Mrs. Ben Raaen are the proud parents of a very nice little daughter, who arrived at their home on Monday, May 15. Dr. Truscott was the attending physician and reports mother and child doing very well, while Ben is just simply tickled beyond expression. Congratulations are strictly in order, and here's hoping that the little lady will soon be able to roll up a hot meal for her daddy in about ten minutes.
