

Mr. and Mrs. A. Garborg and son, Arne, came up from Cooperstown, Saturday, to pay a farewell visit to friends in Binford, before their departure from Cooperstown for their new home which is as yet, undecided. Mr. Garborg entertained an idea of going to Cuba, as he had believed the climate there to be good for his health, the failure of which has caused him to seek another climate, but, as he had not fully decided as to whether he would move to Cuba or California, he may possibly move to the latter state. The many friends of the family regret very much to see them depart, but as Mr. Garborg's health has been failing so rapidly of late, we all sincerely hope that the change will prove beneficial and that the family will prosper in their new home. They expected to leave Cooperstown on Monday.
