

Miss Anna S. U. Larsen, of Duluth, Minn., arrived in Binford, last Saturday to teach the spring term of school, and entered upon her duties in that capacity, Monday morning. Miss Larsen has had several years experience as teacher in both graded and ungraded schools, and holds a first grade certificate, which fact serves as sufficient evidence of Miss Larsen's capability as an efficient teacher. It is to be hoped that the scholars will all take great interest in their studies, and improve all their time which is at this time of life very valuable.
