

Ben E. Nelson, who has been suffering from an attack of pleurisy for the past couple weeks, departed on Friday's train for Fargo to receive treatment at Dr. Darrow's hospital. He can now be provided with a nurse to attend to his wants, and it will be much easier for him. We hope to have Bennie back with us again in the near future for we certainly miss him when he is away. Wonder what Ben will say about that silver cup fracas?
