

young man's condition.

Mr. E. G. Quamme, who has been assisting in the First State Bank here for several days, departed on Monday for Cooperstown from whence he goes to Finley to take up his work in the State Bank there in which he is interested to a large extent. We understand he will become cashier of the State Bank of Finley as soon as the institution is ready for business. This is a new bank just being started in Finley and we understand it has a strong financial backing.
