

### Notice to Clean Up.

Notice is hereby given that all property owners shall remove or cause to have removed all rubbish, ashes, manure and other refuse before the first day of June.

By Order of the Village Council.

Several members of the band got together Tuesday evening and decided to resume practice again, for the summer months, at least. There is sufficient musical talent in Binford among the boys who make this their home and there is no reason whatever why a good band cannot be maintained here the year around. A few of the old marches were gone over at the meeting and with a few more rehearsals—and a little practice on the side—Binford will again have its band as of yore.

Wriley, the 18-year-old son of Mr. and Mrs. Friley Jefford's, died last Sunday evening at eight o'clock, from Addison's disease, a form of tuberculosis. The young fellow had been a sufferer of tuberculosis for five years. About four years ago he was taken to a specialist at St. Paul, for treatment and was getting along fairly well when this latter form set in, causing his death. He was a bright boy, and a future of usefulness was in store

for him could his young life but have been spared. The funeral was held from Klein's church, on Tuesday afternoon, Rev. Klein of Valley City officiating. The sorrowing parents have the deepest sympathy of all in their hour of affliction.
