

ROUTES A SURE GO

Rural Routes Will be Established From Binford About the First of May.

Although Postmaster Gunder has received no official notification regarding the establishment of the two proposed rural routes from his office, nevertheless it is an assured fact that they will be established. Dispatches from Washington and the twin city papers state that

routes number one and two will be established about May 1st. The routes will run southeast and southwest from Binford and will serve 115 families.

Two other petitions are being circulated for routes to run northeast and northwest from the postoffice. One has nearly the required number of signatures. The other has not met with such good success and it is up to the farmers along the proposed route to get busy so the petitions can be sent to Washington together. An effort will be made to have these routes thru by October 1st.
