

May Change Branch Schedule.

General Manager Slade of the Northern Pacific, has laid a proposition before the city council of Valley City looking toward the settlement of the injunction suit brought by the city to restrain the railroad from removing their passenger train service to the high line.

Among the several propositions submitted by Mr. Slade is this: To run the Cooperstown train to Valley City and build a roundhouse and turntable and make Valley City the permanent eastern terminal of the branch and its extensions.

Should the city council agree to settle the case on the terms submitted by Mr. Slade, our branch train will run out from Valley City instead of Sanborn as it has been doing ever since the branch was built.
