

Anton, the 16-year-old son of Mr. and Mrs. T. H. Dahl was taken suddenly and violently ill last Friday about noon and Dr. Truscott was summoned later in the day and found the boy to be suffering from appendicitis. On Saturday he was taken to Platou's hospital, Valley City where he was operated upon at nine o'clock Sunday forenoon. A report from there states that the patient is now improving and is expected to recover.
