

Albert Hagberg, who has been making his home with Gundersons family for the past two years and half left last Monday for Sweden to join his mother and brothers that are there. Albert was taken down with typhoid fever last February, and was in bed for over 9 weeks and ever since he has not been quite well, and Dr. Truscott recommended a change of climate for him and his friends and neighbors decided it would be a pleasant change for him to go back to Sweden and visit his mother and younger brothers. It is his intentions to spend a year or two at home and then return to America again. Albert is favorably known in Binford and well liked by both young and old. We regret to see him leave, but hope that the change will prove beneficial to his health, and that he may again be with us after a couple of years.
