

relatives.

The year and a half old daughter of Mr. and Mrs. John W. Leininger was badly scalded about the head and back Monday. Mrs. Leininger was engaged in washing clothes with a machine in the kitchen, and while she had gone into the next room the baby knocked the cork out of the machine, the hot water spilling over her, causing intense agony. Dr. Truscott was immediately summoned and at the present time the child is getting along nicely.
