STREET WILL BE OPENED

A Deed For the Tract Has Been Granted By the D. S. B. Johnston Land Co.

That Sullivan street south of the Northern Pacific yards will be opened is almost an assured Since the burning of the elevator two Great Western weeks ago the matter was taken up and a petition circulated and the sentiment in favor of its opening was practically unanimous. But it seems the street will

not be opened without meeting

with opposition from the elevator company. The work of clearing. away the debris of the fire has been going on the past week, and a crew of men have been at work putting in a concrete foundation for the company's new house. Notice has been served on the elevator people restraining them

street. The street is being surveyed and it is hoped that the elevator and railroad companies will meet with the demands of the city, thereby avoiding a lot of dallying

from further operations on the

old site, hence obstructing

in law, the ultimate outcome of which can only mean the opening of the street.

A deed of the tract south the right-of-way has been granted the city for street purposes by the D. S. B. Johnston land

Another Bad Storm.

company.

There was Tolna Tribune: another furious storm Monday which reached the it. evening.

height of its violence in a strip striking J. J. Mahoney's place northwest of the lake, across Dutch Point, taking in the north part of Henry Schin-

dele's pasture, the Engel, Beckman and Sessions farms. Mahoney's barn was lifted partially from the foundation and the end of it somewhat wrecked.

Henry Schindele's pasture wind mill was blown down, also the

mills at the Beckman and Ses-At all the farms sions places. in the path of the storm as indicated above, machinery, wagons and some of the farm buildings were moved about, and some binders were wrecked when they in violent contact with came George Enbarns and houses. gel says that in the fields where the storm was the worst not a shock of grain was left standing and even the bundles on the ground were torn and twisted by the wind.

east, around Larimore, and as far east as Crookston, many buildings were unroofed and crushed, and more damage was done than in this vicinity. The rainfall in this and other storms the first of the week has delayed barvest but the weather

is brighter now and the work
