

The TIMES is in receipt of a long letter from H. J. Maurer now holding down a claim near Sedgewick, Alberta. Mr. Maurer is enjoying the winter to the fullest extent and says that he thinks they have had a milder winter than we have. Well, this has been the hardest winter in ten years in North Dakota, and also in Alberta, so we cannot complain of the winter even if it has been quite cold most of the time. H. J. says he would be pleased to extend courtesies to anybody in Binsford or Griggs County, who might wish to visit his section of the globe.
