

Farmers---Attention

Not being able to dispose of my opera house for the purpose for which it was built, I have decided to offer it to the farmers at a reasonable price to be used as a Farmers' Co-operative store. There are lot of these stores in this state that are run successfully and there is no reason why it would not be a great help to the farmers and others around Binford. Think and talk it over with your neighbors and if I find the sentiment in favor of having a farmers' store here I will take steps to have one organized in the near future.

Respectfully,

Ben E. Nelson.
