

Paul Paulson came up from Marion, Saturday to look after the interests of the D. S. B. Johnston Land Co. in this vicinity. He dropped into this office and incidentally remarked that he had bought the plant of the Marion Sentinel, Editor Bush formerly of that paper having removed to the Coast. Paul will now have his troubles since he has added the burdens of a publisher to his list of other troubles, so we wish him success and hope his subscribers will be prompt in cashing in.
