

Landlord F. B. Stone, of the Palace hotel at Cooperstown was out buggy riding Thursday evening, and the horse he was driving became frightened and ran away. Mr. Stone rather than risk his life in a possible overturn, jumped from the rig. He struck the ground in such a way that one of his legs and foot was broken in many pieces. Expert attention was given him almost immediately and the doctors decided that amputation was necessary. Mr. Stone last year broke his knee cap at Red Willow lake, and the accident this year would seem to indicate that he was unfortunate. He has the sympathy of his many Binford friends in his misfortune.
