

CHANGE MADE IN AUTOMOBILE FIRM

F. G. Lewis Buys Interest in Ed Johnson's Automobile Garage.

A deal was completed Tuesday whereby F. G. Lewis acquires an interest in the auto garage conducted by Ed Johnson.

Mr. Johnson has built up a splendid business since coming to Binford last summer. Starting out on a small scale he kept steadily adding to his equipment until now he has a repair shop that is second to none in this section. His business grew so rapidly that he was compelled to build an addition to his garage, and with the added room, will be in a position to handle more work and turn it out in much quicker time.

Mr. Lewis hardly needs an introduction to our readers. Both gentlemen are hustlers, genial, accomodating, wide awake business men, and are sure to make a big success of the business. Mr. Johnson is an expert mechanic, and those who had autoes that needed doctoring were not slow in recognizing his ability. With Mr. Lewis interested with him and attending to the outside affairs he will be better prepared to handle a greater amount of work.

They expect to put in some more modern machinery, and will handle oils and accessories. Besides that they will run an auto livery.

Elsewhere in today's Times they have an ad calling the attention of those who have autoes that need overhauling to bring them in and have them fixed up during the winter, so as to avoid the rush in the spring.
