

The local order of Odd Fellows are busy practising their degree work, as they have some important engagements during the month of March. On Saturday, March 8, they will go to Courtenay, to work the first degree, and the 15th they will go to Tolna, where a class will be initiated and where they will also work the first degree. They will also assist in instituting a lodge in Sutton some time during the month, and with the contest for the cup to be held in Cooperstown, it makes it an exceedingly strenuous time of it.
