

ODD FELLOWS

MAKE BIG HIT

Put on Two Degrees With Big Class at Tolna—Had Enjoyable Time.

Tolna Tribune: A class of ten candidates was taken into the local Odd Fellows lodge here last Saturday evening, the Binford team doing the work.

The annex to the old drug store was put in proper shape for the occasion by covering the glass front with heavy paper, arranging ample seats and other things and made a large and roomy place for the putting on of the work. The evening was fair and rather cold but despite the fact all members were present. Five automobile loads came from Binford, arriving about supper time. After having supper the work was started and the candidates consisted of T. S. Oium, A. H. Dahl, Alf Eastgate, Mark Wold, Alex Schiller, C. S. Swenson, Herbert Ward, A. E. Anderson, Ole Lee and Geo. Philips were put through the initiatory degree, which took until about 12:30, at which time an excellent supper was served at Price's Cafe. About an hour was taken for supper after which the candidates were given the first degree. This lasted until about 5 o'clock a. m., when lunch was served again at the cafe, in which all heartily partook and enjoyed some excellent stories told by professionals in this line. George Groves appeared to lead by far. After the lunch the tired crowd began leaving for some much needed rest.

We wish to say that we received a surprise, which was no small one, at the work which was put on. We expected to be made the subject of a lot of "horse-play" as is usually the case in joining lodges, but instead we saw work which was beyond our expectations and will never be forgotten. The Binford team put on the work in a way which in our opinion could not be much improved and certainly reflects much credit upon our neighboring town and its lodge. The local lodge also comes in for a good share of credit in securing this excellent team for the benefit of its candidates.
