

The directors of the Norwegian Lutheran church met on Monday, and many matters of importance were discussed. A cement walk will be built along the church property, and lawn grass and trees will be planted. A deal was also made whereby 30 acres of land just north of town will be broken up and seeded to flax, and the proceeds go towards paying off the remainder of the church debt. This land belongs to an eastern party. He is willing that the church have all the crop off of it, in payment of the breaking. The debt against the church is not so very large but what nearly all can be paid if we have a good year.
