## Mail Carriers Get Raise.

Postmaster F. G. Lewis received a notification from the department last week to the effect that the salaries of all rural mail carriers have been raised to \$1100 per year, the new order to go into effect after October 1. This means considerable to the mail carriers, as they have long been compelled to work too cheap and while \$1100 is not enough for the work they do, nevertheless the increase will undoubtedly be appreciated.
