

AFTER BETTER TRAIN SERVICE

Passenger Train May Run Into Valley City Instead of Stop- ping at Sanborn.

A petition has been circulated here during the past week which will be sent to the Northern Pacific officials asking that the passenger train on the Cooperstown branch be run into Valley City, instead of stopping at Sanborn.

There has been no trouble in securing signatures to the petition here. Similar petitions have been circulated in all the towns on the branch, and the matter has also been taken up by the traveling men who make this territory. We believe the move is a good one, and no doubt, will be acted on favorably by the railroad officials. There are many things in favor of the desired schedule. It would be an accommodation to the travelling public as it would obviate the delays and changes now necessary at Sanborn, where there are but poor accommodations and where the average person has no business to transact. It would also end the delays and often-times harmful effects that are occasioned when taking patients to the hospitals.
