

memoriation of the event.

The village board met this morning and an ordinance prohibiting the coasting on the sidewalks which has been indulged in by the children with their little wagons and the riding of bicycles on the sidewalks was passed, and also an ordinance prohibiting the shooting of guns, rifles, air guns within the corporate limits. Parents should take warning and not allow their children to fracture these ordinances. It is hard sometimes to deny the little ones some of their pleasures, but for the safety of the children themselves and pedestrians and to avoid frightening horses the ordinance was passed. Dr. J. R. Truscott was appointed assessor and A. D. Shaw street commissioner.
