

Theo. Kittelson has purchased an interest in the Greenland & Lunde machinery business at Cooperstown, and moved his household effects to that city Tuesday. Mr. Kittelson is a wide-awake business man and the county seat town is to be congratulated on his decision to engage in business there. His knowledge of machinery and his reputation for square dealing will make him a very valuable addition to the new firm. The Times regrets the removal of Mr. and Mrs. Kittelson from our midst, but rejoices with many others that he did not move farther away.
