

home in Norway for a visit.

Word from the Wm. Lucht family, who left here a short time ago for Spokane, Washington, states that they are pleasantly located in a new home, all fitted up with modern improvements, such as heat and water, etc. Mr. Lucht purchased four lots, two of which are covered with fruit trees. The boys are attending school, and otherwise are enjoying the advantages of city life, besides they are far enough out from the congested business portion of the city to remind them that they once farmed in North Dakota.
