

been closed until that time.

Three new instruments have been received by the band boys this week. Arthur Idsvoog and Helmer Hanson each get an alto, of the melephone type, and are manufactured by the Pepper and Diston companies. The other instrument is a Bb Benson cornet for Arvid Nor-trum. The boys are "just tickled to death" with them and they will prove a valuable addition to the band. It is probable that a concert will be put on this winter.
