

A school entertainment was given at the Retzlaff school house, south of town, last Saturday evening. A fine program, consisting of music, essays recitations, readings, and dialogues, had been prepared. The entire program was executed with the precision of a well oiled machine. Every person did his part well and was a credit to the school. The teacher had surely done some excellent training. Mr. Kampen, county superintendent, was present and in a most difficult situation, gave an address which was interesting to the last.
