

**Sutton Reporter:** At the I.O.O.F. meeting Monday night a committee was appointed to confer with a committee from the Sons of Norway lodge about the erection of a building to be used as a lodge room and public hall. No definite plans have yet been formed but it is the general idea that a two story building 100 feet long will be put up, the lower part to be leased for business purposes. The Ringlee store will be looking for larger quarters soon, and it is possible they may be willing to lease the lower part of the proposed building. In order to finance the project a stock company is to be formed and shares sold. It will be a wonderful improvement to Sutton if the plans are put through, as the town will not only be able to boast of a handsome new building, but it will have a hall of ample size and equipment to accommodate any ordinary traveling show company. The lodges will also have a suitable home where their work may be properly exemplified.
