

Jorgan Houland, the young man who made his home with Rev. Swenson last year, is now at his home in Norway. It will be remembered that he had tuberculosis in his hand and was taken to the hospital at Valley City, where it was amputated. At the time about \$45 was subscribed to defray the cost, and this money has been sent to the hospital by Mr. Swenson. In a letter to Mr. Swenson, Mr. Houland desires to thank all who assisted him.
