

point to attend hereafter.

Professor Bagley, of McHenry, met with the band boys last Friday evening, and it was decided to engage his services to direct the band during the winter. Mr. Bagley is an accomplished musician and director, and under his tutelage it is hoped the band will make more rapid progress. At present the instrumentation is not sufficient, but this will be perfected as soon as possible. Mr. Bagley explained that we have a good nucleus for a splendid band and with the new members who are going to join, he states that in a very short time, Binford will make them all sit up and take notice.
