

C. C. Connely, of Devils Lake, manager of the statewide immigration bureau, was in Binford the first of the week, and addressed a meeting at the opera house Tuesday morning in the interests of the movement. Mr. Connely gave a very interesting talk and outlined the plan by which the bureau hopes to induce settlers to locate in the state. Moving pictures of farm and town scenes will be shown in the east and thru this method and with literature they hope to start immigration in our direction. A meeting will soon be held in Valley City to perfect an organization for this section of the state.
