**Club Has Membership of Twenty—  
Application for Charter Has  
Been Made.**

Secretary J. J. Herlick, who was appointed to solicit memberships for the Binford Rifle club, has secured the signatures of 20, and yesterday sent the application to Capt. E. C. Geary, of Fargo, state secretary of the National Rifle association, for his approval, before it is passed on by the Adjutant General of the state. In case the application is approved by the Adjutant General, the club will be elected to membership by the National Executive Committee, and is then ready to begin record shooting.

The National Rifle Association presents annually to all of its affiliated clubs a medal, to be competed for by the members of the club. The War Department issues decorations free to those who qualify as marksman, sharpshooter, or expert on outdoor ranges.

The local club has excellent outdoor facilities. In the hills north of town ranges of any required distance can be constructed. Three targets will be secured by the local club, one for each range, which will be determined later. Forty rounds of ammunition for each target and one rifle for each five members will be furnished free of cost by the government.
