The following who have not appeared for examination have been certified:

Olaf Bernard Nelson, in penitentiary.

Vitantonio Bellantuono, whereabouts unknown.

Diiodate Vitale, whereabouts unknown.

Hilmar Rud, whereabouts unknown.

Peder Julius Turner, whereabouts unknown.

A few who were called and who have been ordered examined elsewhere have not been heard from yet and most of those examined Monday of this week have not been passed upon as they cannot be passed upon until the time for filing claims has expired.

The "Patriotic Squadron" traveling in a Ford car and visiting all the towns of the state, arrived in Binford Saturday evening. Addresses were delivered to an audience gathered on the sidewalk in front of the drug store. The speakers were Smith Stimml and W. G. Arnold. They explained their object in making this trip as an endeavor to arouse the people to the seriousness of the war in which this country is now engaged, and the necessity of the citizens taking steps for protecting their fields, machines, granaries and elevators from possible destruction by I. W. W. gangs or German spies and sympathizers. In many of the towns that the "Squadron" has visited, defense organizations have been established, and other precautions taken against destruction of property and disturbances.

### Sell the Champion Cream Saver

## THE NEW DE LAVAL

THERE is no machine made in which proper lubrication is more important than it is in a cream separator. A separator that is not properly oiled will turn hard and soon wear out.

The automatic method of oiling through a number of little holes with a squirt-can was unsatisfactory for the reason that some users would oil too much and too often, while others would not oil at all.

### The NEW De Laval is automatically oiled

You don't have to fuss around a NEW De Laval with a squirt-can. Simply keep the sight-feed indicator on top filled with oil and the automatic oiling system will see that every gear and bearing in the machine has just the right amount of fresh, clean oil at all times.

The automatic oiling system saves time and saves trouble. Makes the machine run easier and adds years to its life.

The De Laval oiling system has been greatly improved by the addition in the NEW De Laval of an automatically oiled neck bearing and the consequent elimination of the labor that formerly carried oil to this most important part.

There has never been a cream separator that embodied so many improvements as the NEW De Laval.

The new self-centering bowl with its improved milk-distributing device, and the bell speed-indicator which insures operation at the proper speed, are two of the greatest improvements that have ever been made in cream separator construction.

Come in and see the NEW De Laval.

Showing automatic oiling of NEW De Laval.

## YOU HAVE A DIRECT INTEREST

*In the growth and development of the Federal Reserve System because its object is to improve banking, currency and credit conditions; and to lessen the likelihood of those financial disasters which in the past have brought untold losses to the business and laboring men of the country.*

*You can contribute directly to its development as part of every dollar you deposit with us goes directly into the new system to protect our depositors.*

*Don't delay any longer to get under its protection.*
