

or not — when caught in the act.

Pekin Budget: Mrs. Otto Knapp was taken ill last week with a serious stomach trouble, an after effect to the operation which she underwent. During the week she had several severe attacks and Dr. Arneson was called at times to attend. Monday evening she was taken with an unusually severe attack, and Dr. Arneson being out of town, Dr. Paulson was telephoned. In order to give her medical treatment and good care she was taken to the Community hospital at McVille, and she is reported as improving nicely, and it is hoped she will regain complete health soon.
