

Binford can now boast of having one of the neatest restaurants to be found anywhere. The old corner entrance has been closed, and a new plate glass front with a centre entrance put in. The interior has been enlarged and rearranged. The old back eating room is now a part of the main room and the lunch counter placed along the south wall with easy access to the kitchen. Tables will be placed along the north side. All the fixtures have been treated with a mahogany stain, the walls and ceiling papered and a hard wood floor put in. The old Hub has been a popular eating house and with these added improvements enough more business will be gained to soon make up the expense of remodeling. Mr. Shaw is a capable restaurant man and he is to be commended on his enterprise.
