

Sutton Reporter: The work of excavating for the new store building opposite the hotel has been started. There will be full basement and the building will be two stories, with a fourteen foot ceiling for the upper story. This will be used as a hall for public gatherings. The building will be put up by a stock company composed of Chas. L. Anderson, Joseph Ebentire, K. M. Ellingson, Martin McWety, Wm. Howden, Robert Bailey, Oscar and Adolph Kjelson. This company will own the building only, as Mr. Anderson will have full control of the store. This will be one of the greatest improvements our town could look for just now and will be one more step toward making Sutton **THE** town on this line.
