

SUTTON NEWS.

Mrs. John Ebentier was quite sick a few days the first of the week.

Miss Ursa Ebentier visited over Sunday with her brother, Arthur, at Fargo.

C. A. Linse of Binford is doing some papering for the farmers north of town.

Wm. Howden returned the first of the week from St. Paul, where he went with a car of stock.

It will not be many days ere we will see our local ball players laying plans to pull off the first game of the season.

We neglected to mention last week that E. R. Robinson is now the sole proprietor of the garage, having acquired the Burleson interest in the stock. He says business is opening up fairly good this spring.

Work was begun on the new house of Mr. P. Hafner's which he is building on his land south of the depot. It will be a two-story building with basement, and will be a handsome structure. Chris Rood is doing the carpenter work. Mr. Hafner will also build a barn for horses, cows, chickens, etc. and will soon be prepared to live the royal life on his 30-acre farm.

The S. of N. basket social last Friday did not attract a very large crowd, owing, perhaps, to the fact that the farmers were just getting a start in the fields. Only about a dozen baskets were bought, but through the good salesmanship of "Col." H. L. Hill, they were sold at substantial prices. The Sutton orchestra tried to fulfill their part of of the contract, and we "reckon" the folks who were there had a very good time after all.

Rev. A. M. Hewson came up from Dover Sunday evening and held church services at the school house. Although the notice of the meeting was short there was a good audience present. He will preach again at the school house Sunday evening and all are cordially invited. Rev. Hewson is a fine talker, educated and thoughtful, and his sermons are helpful to all, whether church members or not. It will not work much hardship on you to spend an hour at church each week, so come out. Get the habit.—Sutton Reporter.
