

Sutton Reporter: The local passenger is now combined with the freight as a mixed train, and is now due here at 11:20, going west, and at 2:40, going east. All of our mail comes on these trains, so we no longer get Sunday mail. No. 1, the swell train of the system, travels over this road. One exchange says we are doubtless "fussed up" over the fact, but to our way of thinking it is like the girl winking at the man in the moon—it don't get us anything.
