

Edna Youngbeck, the eight-year-old daughter of Mr. and Mrs. John Youngbeck, of near Sutton, was taken suddenly ill last Saturday, and upon examination it was found that her appendix had burst. The child could not be moved to a hospital, so a doctor was called from Fargo to operate upon her at home. He arrived at about seven o'clock in the evening, performed the operation, and returned to Fargo the same night, the flyer stopping for him both ways. He remarked on leaving that the patient had a slim chance of recovery, but from latest reports the little girl is improving.
