

usual excellent style.

A very pretty shower party was given Monday evening at the hotel, complimentary to Miss Frederika Behm, who is leaving shortly for California where she will marry. The dining room was nicely decorated, the color scheme of red and green being carried out with paper streamers suspended from two bells above to the ends of a long table. The centerpiece was a large Kewpie, and plates were laid for about 25 guests. Paper dressed lollypops were used as place cards. After indulging in various games, the ladies tried their luck at a fishing pond. The honor guest proved to be the lucky one, as she pulled in a basket heaped with beautiful and useful gifts, which will be constant reminders of her friends here when she starts housekeeping in the west.
