

The initial steps have been taken to secure a school house site. It is high time that the matter was under way as such things take a long time and unless the matter is pushed vigorously the new building will not be completed in time for use next fall. We need a new building and need it badly and sincerely hope that no obstructions will be offered to its early completion. The present building is entirely too antiquated for our present needs and is wholly unsuited for cold weather. During the recent cold snap it was impossible to hold school because of inability to warm the building.
