

---

J. A. Pepper, of Hope and J. M. Stewart, of Mayville, have again formed a partnership and will start a newspaper up at Aneta, the flourishing new town just springing into life, at the end of the extension of the Hope branch of the G. N. The new paper will be a seven column folio, four pages, and called The Aneta Panorama. It will be operated by the Aneta Publishing Company, with J. A. Pepper editor and manager. The material is now on the ground and they expect to get out their first number next week. Many friends of the boys join the Pioneer in wishing them an abundance of success.
