
Hope to be Lighted by Electricity.

A meeting of some of our prominent business-men was held Monday evening; for the purpose of organizing a Stock Company, to furnish Electric lights to the people and town of Hope.

On motions moved and carried. F. M. Gilmore was appointed chairman, and C. S. Moores secretary. As a result of the meeting, these gentlemen propose to form an Incorporated company, with a capital stock of \$1,500. To be limited to 150 shares at \$10 per share. Most of the stock has already been subscribed for and undoubtedly before the week ends will find the list closed. If these people secure enough applications for lights to guarantee them putting in this plant, which we understand is to be 350 lights, then this enterprising town will soon as practical be equipped with a 12,000 candle power dynamo furnishing light at a very cheap rate. The Pioneer wishes the promoters of this enterprise every success and feels confident when started will prove a very successful venture.
