

On Monday last, as Nels Olson and his little girl was coming to town, the team attached to the wagon ran away, spilling them out. His little daughter was run over, one wheel passing over the left arm, breaking it, and causing the little one terrible pain. Mr. Olson hurried on to town to have it attended, and in the absence of Dr. Philip, Dr. Stephenson was pressed into service. The child is doing nicely and we hope for her speedy recovery.
